So Mr. Bridgman Declared, and Added all Would

SOON KNOW WHICH ONE

Peary Arctic Club Meets to Pass upon The Charge of the Explorer That Dr. Cook Did Not Reach Pole.

Dobbs Ferry, N. Y., Oct. 5.—The Peary-Cook controversy was brought unexpectedly into a Hudson-Fulton celebration meeting in the Rev. J. M. Trout's Presbyterian church here Sunday night, when Edgar Mayhew Bacon, author of the Henry Hudson biography, and Herbert L. Bridgman of the Peary Arctic club met on the same platform. Mr. Bacon was down to speak on the subject of the influence of the Netherlands on the United States, and in the course of his speech remarked that the religious influence of Massachusetts on this country had been greatly exaggerated. Mr. Bridgman was born in Massachusetts, and prefaced his remarks on Robert Fulton with a vigorous defense of his native state. Then, meaning to cast oil on the troubled waters, the Rev. Mr. Trout, after Mr. Bridgman had sat down, said that the two preceding speakers' dispute about Massachusetts against New York reminded him of the Peary-Cook controversy. Mr. Bridgman jumped up immediately.

"There is no occasion for any difference of opinion in that controversy," he said. "The north pole has been seen by only one white man. In a very few days every member of this audience will be in no doubt whatever about it."

Portland, Me., Oct. 5.—After several weeks of carping and worrings, railroad journeys and searching interviews, Commander Robert E. Peary, the Arctic explorer, is enjoying all the comforts of his home on Eagle Island, twenty miles down Casco bay, yesterday. A beautiful autumn day greeted the commander and his family when they arose. An invigorating salt sea breeze swept over the little land, making the spot an ideal place to rest. Isolated from any telephone or telegraph, and wholly uninformed of what was taking place in the world about him, the explorer was alone and undisturbed with his family.

The officers of the Peary Arctic club held a meeting yesterday to pass formally upon the proofs of Commander Robert E. Peary that Dr. Frederick Cook did not reach the pole. The statement will be made public in a few days.

The following resolution was passed by the officers of the club:

"That the Peary Arctic club cordially welcomes home Commander Robert E. Peary, C. E., U. S. N., and congratulates him upon the attainment, April 6, 1909, of the north pole, crowning years of arduous Arctic work, of devotion to ideals, and of loyalty to country; and invites him to honor it with his company at dinner at a date convenient to him."

"That the club tenders to the officers, scientific staff, and men of the expedition its thanks and appreciation for zealous performance of duty, which, with superior discipline and excellent teamwork, resulted in complete success."

The crew of the Arctic ship Roosevelt was paid off yesterday and given transportation home to New Foundland.

BERNIER GOT TO 84 NORTH.

The Steamer Arctic Was Frozen in 12 Months.

Father Point, Que., Oct. 5.—The Canadian government steamer Arctic, captained here at 7 Sunday evening, Capt. Bernier refused to talk saying that he must first report to the minister of marine, but from members of the crew it was learned that the ship had got as far north as 84 degrees on Aug. 19, 1908, and had there been frozen in, only being released on Aug. 6 of this year.

Plenty of game was found, including white bear, musk ox, deer, fox and other

DIRTY KIDNEYS ARE CAUSE OF BACKACHE

A Few Doses Clean and Regulate The Kidneys Ending Lame Back and Bladder Misery.

If you take several doses of Pape's Dietetic, all backache, and distress from out-of-order kidneys or bladder trouble will vanish, and you will feel fine.

Lame back, painful stitches, rheumatism, nervous headache, dizziness, irritability, sleeplessness, inflamed or swollen eyelids, worn-out, sick feeling and other symptoms of sluggish, inactive kidneys disappear.

Uncontrollable, smarting, frequent urination (especially at night) and all bladder misery ends.

This unusual preparation goes at once to the disordered kidneys, bladder and urinary system and distributes its healing, cleansing and vitalizing influence directly upon the organs and glands affected, and completes the cure before you realize it.

The moment you suspect any kidney or urinary disorder or feel rheumatism pains, begin taking this harmless medicine, with the knowledge that there is no other remedy at any price, made anywhere else in the world, which will effect so thorough and prompt a cure as a fifty-cent treatment of Pape's Dietetic, which any druggist can supply.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern, thoroughly worthy of your confidence.

Only curative results can come from taking Pape's Dietetic, and a few days treatment means clean, active, healthy kidneys, bladder and urinary organs—and no backache.

Accept only Pape's Dietetic—fifty-cent treatment—any drug store—anywhere in the world.

Good Blood

Means good health, and Hood's Sarsaparilla has an unapproached record as a blood-purifier.

It effects its wonderful cures, not simply because it contains sarsaparilla but because it combines the utmost remedial values of more than 30 different ingredients. There is no real exhalation for it. It is tried to buy any preparation said to be "just as good" you may be sure it is inferior, costs less to make, and yields the dealer a larger profit.

Get Hood's Sarsaparilla today. In usual liquid form or in chocolate tablets known as Sarsaparilla.

For bearing animals, but no seals, whales or Eskimos were seen. There was very little snow, the moss being exposed on the island adjacent, on which the Canadian flag was planted.

The expedition returned in good health. The Arctic is expected to arrive in Quebec Tuesday morning.

Except for the possible Bradley land, reported seen by Dr. Cook, there has been no land discovered north of Canada as far north as 84 degrees, unless Crocker land, seen by Peary in 1906 about 70 degrees, northwest of Grant land, extends that far north.

Although no direct word has been received from the Bernier expedition since the Arctic left Quebec July 28, 1908, it is known that Capt. Bernier did succeed in extending Canada's dominion, Scotch whalers returning to their home ports from the Arctic grounds reported that the expedition had located the Union Jack over many frozen stretches of Arctic territory.

In company with Capt. Bernier on the expedition are officials of the Canadian hydrographic survey, an expert photographer, and what is described as a "good crew."

SUCCESSFUL SEASON FOR BOSTON RED SOX

Good Record Made by Manager Laker's Team, Although Ending No Nearer the Pennant Than Third Place.

Boston, Oct. 5.—The Boston Red Sox, who closed their American league season on Saturday with the double-header with New York, have made a record for themselves which quite met the expectations of Manager Laker, notwithstanding that a possible chance to get the pennant was lost through the inability of the team to hold its pace on its last trip West.

Boston finished the season with 538 points to its credit, winning 88 games and losing 64. Only three of the 151 games scheduled were unplayed, one being lost in Philadelphia and two games in the St. Louis series in Boston being cut off by rain.

Of the 75 games played on the Huntington avenue grounds, Boston won 47 and lost 28, winning every home series except that with Philadelphia, which took six games to Boston's five. The Red Sox beat Detroit six games of the 11 played and had a margin of five games over Chicago, Cleveland and New York, taking seven of the nine games played with St. Louis and eight of the 11 games with Washington.

On the road Boston won five of its seven series, losing only to Detroit and Philadelphia in the 10 games played on Shibe park. On the road Boston played 76 games, winning 41 and losing 35, which is indeed a splendid record, its best showing away from home was against Washington, this series standing 8 to 3 in Boston's favor.

It was also against the Senators that the best total for the year was made, the Red Sox taking 18 and losing only 6 of the games played against Cantillon's team. Boston took 14 games from Cleveland and 13 each from Chicago, New York and St. Louis. The Athletics beat Boston 11 times, but were defeated 10 times, while the Tigers, whose record against the Red Sox was best of all the teams, won 13 games from Fred Lake and lost 9 games.

Against the western clubs Boston won 27 and lost 18 at home, and won 21 and lost 12 away, an even break, the Red Sox total against the West being 48 won and 37 lost. With the eastern teams Boston won 29 games at home, losing 13, and away won 19 and lost 13, the total against the east being 39 won, 26 lost.

Following is a table showing Boston's series for the year, at home, away and for the season.

Totals	47	28	41	35	88	64	88	64	88	64	88	64	88	64

More people saw the Red Sox play ball this year than ever before, although because of Philadelphia's position in the race the past few weeks, the Athletics beat Boston's record, and Detroit, because of its unprecedented business on the road, ranks ahead of both.

This year Boston played to 1,066,708 people, according to the available figures, Philadelphia's season total being 1,117,636 and Detroit's, not including Sunday's game in Chicago, being 1,108,161. Such attendances never have been known in base ball.

The Red Sox played to 666,101 at the Huntington avenue park this year, an average of 8,882 a game, and this counting double-headers as two games. On the road the team was seen by 490,617 fans, an average of 5,533 for the 76 games played away from home. An average of 7,107 saw each of the 151 games played by the Red Sox for the season.

The best attended series at the Huntington avenue grounds was that with Cleveland, 191,106 seeing the 11 games played. Detroit drew 123,813 and both Chicago and Philadelphia played to more than 90,000. The best attendance on the road was in Philadelphia, where 104,374 saw the Red Sox play, this being 32,000 more than the attendance in Detroit, which was the next best.

Boston played to so many crowds over 10,000 that it is not worth while to enumerate them, but there were at least six really noteworthy days at the Huntington avenue grounds during the season. The Boston record was broken on Aug. 3, when 29,781 saw a Detroit double-header. On Aug. 14, 25,920 saw Cleveland play two games, while on Aug. 14 a second double-header between Boston and the Tigers drew 25,437. Later, on Sept. 20, the Tigers played to 20,004 on a double-header day, and on Sept. 18, 18,561 saw the White Sox play two games here.

The record for a single game was set by Cleveland on June 12, when there were 32,175 fans inside President Taylor's fences. Away from home Boston played to its biggest crowds in Philadelphia, there being 30,102 at Shibe park on April 12, the championship season's opening day, and 31,122 seeing a double-header between the Red Sox and the Athletics on Sept. 11.

The following table tells the story of the attendance at the Red Sox games at home and away from home:

TAFT IN SACRAMENTO

Given the Usual Hearty Reception

MAKES BRIEF ADDRESS

The President Is Planning Another Trip to Panama with Mrs. Taft Along. He Will Go About Christmas.

Sacramento, Cal., Oct. 5.—With a large part of his present 13,000 mile trip still ahead of him, the president is figuring on the possibility of a run down to the Isthmus of Panama and back during the three weeks' Christmas with Mrs. Taft is making plans too for a trip to Panama. This will depend altogether on Mrs. Taft's health. Reports of her steady improvement have delighted the president and he is looking forward to the sea voyage to the Isthmus with her. The president intended to have Mrs. Taft accompany him on his present western trip but her health would not permit.

The president had originally included Alaska in his present jaunt but the late adjournment of Congress forced him to cut it out. He wishes to see the territory with his own eyes before recommending the legislation that he has proposed in regard to its government. Next to his tariff speech, his Alaska program has probably aroused the most antagonism of anything on his trip. A lot of people on the Pacific coast have business interests in Alaska, and many more have relatives who have settled in that country, and the latter are stung at the president's characterization of Alaska's population as nomadic and unfit for self-government.

The president arrived in this city at 7:30 last night. It was his first stop in California and judging from the character of his reception here, he is as popular with Californians as he is with those of the Pacific states further north. The president's program at Sacramento included an automobile ride about the city, a brief address at the capitol and dinner in the evening.

Before reaching this city President Taft had about twenty hours of continuous travel. He leaves today for Oakland, Berkeley and San Francisco.

Base Ball Notes.

The American league base ball season closed yesterday and the National league games will wind up Thursday.

The latest post season series which will be played this fall will find all the teams fairly well matched.

Detroit has played so nearly 1,200,000 people this season, the record for the year, but nearly two thirds of this number saw the game away from Detroit.

The Red Sox were unable to defeat the Brooklyn team in Sunday's game, the result being a tie, 4 to 4, the game called in the 11th inning.

Cobb ended the season with a substantial lead of 34 points over Collins in the batting list.

The base ball fans will be kept busy for the next few days preparing to do the world's series between Pittsburgh and Detroit and the series between the Giants and the Red Sox.

ITCHING IRRITATION

Worst Form of Skin Trouble Quickly Cured By Inexpensive Treatment.

When you suffer with any skin trouble, even though the itching seems unbearable, do not think that it is necessary to use some disgusting preparation. Try Hekara, a pure and simple skin food, that is guaranteed to contain no grease or acids and which is so clearly that it does not soil the skin.

Its power to instantly relieve any irritation of the skin and make it soft, white and beautiful is almost miraculous.

Not only are minor skin troubles, like pimples, blackheads, acne, barber's itch, etc., quickly cured, but the worst ulcers or cases of salt rheum or eczema are relieved and healed by this wonderful skin food.

In order that any one may try Hekara at small expense D. F. Davis is selling a 10-cent sized jar at 25c and in addition, guarantee to refund the money if the treatment does not do all that is claimed for it. Larger size 50 cents.

All Who Would Enjoy

good health, with its blessings, must understand, quite clearly, that it involves the question of right living with all the term implies. With proper knowledge of what is best, each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to living aright. Then the use of medicines may be dispensed with to advantage, but under ordinary conditions in many instances a simple, wholesome remedy may be invaluable if taken at the proper time and the California Fig Syrup Co. holds that it is alike important to present the subject truthfully and to supply the one perfect laxative to those desiring it.

Consequently, the Company's Syrup of Figs and Elixir of Senna gives general satisfaction. To get its beneficial effects buy the genuine, manufactured by the California Fig Syrup Co. only, and for sale by all leading druggists.

FALL BASE BALL PRACTICE.

Twenty Candidates for University of Vermont Team Turned Out.

Burlington, Oct. 5.—The fall base ball practice at the university of Vermont commenced Saturday with a squad of about 20 men. The game rish held a little while before, was responsible for there not being a larger number of candidates on hand. Last year's second baseman, Ted Collier, has been chosen as this year's coach, and it is thought he will make a successful one, as he played four years at second base for the university and is well liked by all. There is very good material in sight this year for a number of the freshmen class have reputations acquired in preparatory schools. Among these are: Smith of Pittsfield, Mass.; Mahoney of Lowell, Mass.; Estes and Brewer of North Adams, Mass.; Lyons of Manchester, N. H.; Flaherty of Cushing and King and Johnson of Rutland. Capt. Burlington and Manager Pierce are both taking hold and have succeeded in arousing plenty of interest, and so long as the weather permits practice will be kept up. There will probably be a game between the freshmen and the sophomores within the next two weeks.

SIC RANGERS ON 'EM.

Jeff's and Lil' Artha's Portion if They Fight in Texas.

Austin, Tex., Oct. 5.—Gov. Campbell stated Sunday night that under no considerations would he allow the proposed Jeffries-Johnson fight to be held in this state. It stated that, if necessary, he would use the entire forces of rangers to prevent it.

POLICEMEN INDICTED.

The Charge Is Abetting in Book Making.

New York, Oct. 5.—Police Inspector John J. O'Brien, Lieut. Hugh Reynolds and Sergeant Hugh Meyers were indicted by the grand jury of Kings county yesterday, charged with aiding and abetting book making at Sheepshead and Gravesend race tracks. Five detectives from a private agency were also indicted at the same time. They were David C. Thornhill, Albert Beutler, Seymour Boyler, James Dammert and George Mason.

Judge Dike paroled the police officers until the day of their trial, which will be Oct. 18. The private detectives will have to give bail. All of the men entered pleas of not guilty.

Indictments against the Coney Island Jockey club, which controls the Sheepshead track, and the Brooklyn Jockey club, which controls the Gravesend track, as corporations, were also handed up.

TRAGEDIES OF SAILORS.

One Asphyxiated, Another Unconscious from Gas.

New York, Oct. 5.—The first tragedies to mar the visit of thousands of United States sailors here during the past week occurred Sunday. Two blue-jackets from the United States ship Montana were found in a room filled with gas at an East Side hotel. One of the sailors was asphyxiated and the other was unconscious.

One of the Montana's crew went to the morgue and identified the body of the dead sailor as that of Napoleon German, 25 years old, of St. Patricks. In the hospital he identified the unconscious sailor as Leonard Hixson, 24 years old, of Paterson, N. J.

Samuel E. Herman of Corona, L. I., a third class painter on the United States ship Castine, tender of the submarine fleet, was drowned at Poughkeepsie on Sunday.

IN THE MISSISSIPPI.

Over Enthusiastic Sightseers Took Involuntary Baths.

St. Louis, Oct. 5.—Fifteen thousand enthusiastic and curious persons tried to board four tiny torpedo boats at the same time yesterday. The boats could not hold them and part of the overflow, numbering 150, were pushed into the Mississippi, to be drawn ashore by police, sailors and others.

Many were trampled under foot, when two squads of police reserves charged into the crowds to drive them back from the boats.

Scores of women fainted and were carried into the wharf boat at the landing. The executive officer of the fleet ordered the boats closed to the public. The greater part of the crowd, which was good natured though rough, then dispersed.

RAY LAMPHRE NEAR DEATH.

Effort to Get Him to Tell All He Knows About Murders.

La Porte, Ind., Oct. 5.—Believing that Ray Lamphre, who was convicted as an accomplice of the arch murderer, Mrs. Guinness, has but a few days more to live, State Attorney Smith is endeavoring to get the man to make a confession clearing every detail of the Guinness death from mystery, when he realizes that his end is at hand.

Up to the present time he has protested persistently that he knows nothing about how Mrs. Guinness killed and disposed of her victims. Lamphre has consumption.

SIGNS OF THE TIMES.

Needed to Get a Drink or Cigarette in Kansas.

Topeka, Oct. 5.—To get a drink or a cigarette in Kansas during these dry times you have to know the proper sign of distress and signal it to "some one who knows."

Here are a list of the most commonly used signs:

Two fingers up with hand turned in, a bottle of beer.
Left arm extended, thumb down, fingers straight out, drink of whiskey.
Two thumbs up, fingers closed, half-pint whiskey.
Twirling thumbs, with fingers folded, two bottles of beer.
Finger in the ear, high ball.
Pulling the lobe of the right ear, gin rummy.
Hands over the heart, whiskey and lemon.
Crossing of leg above knee, standing, royal gin fizz.
Crossing leg below the knee, silver gin fizz.
Both arms extended, Patsy Connor.
Finger touching tip of the nose, Manhattan cocktail.
Hands clasped behind back, dutch soda.
Shaking hands with yourself, champagne.

Whirling fingers around temple, or making a motion like hammering, cigarettes or "cotton-nails."

A good old Methodist preacher who was in the habit of clasping his fingers and twirling his thumbs, while thinking over the problems of the ministry, stopped at a hotel in a Kansas town the other day and waited in the lobby while the porter did an errand for him. He got to thinking and twirling his thumbs. Another porter noticed him, walked by the old patriarch and whispered:

"I'll leave them in your room."

"What's that?" asked the preacher, startled from his reverie. But the porter had gone on.

The preacher went to his room. He had been there but a minute when he popped the porter with a mysterious package. Opening it he placed a couple of pints of beer on the table and suggested that the preacher tip him 75 cents for the beer and the work of getting them.

"What?" shouted the preacher. "What do you mean by bringing beer into my room? What do you mean, you law-breaker!"

"What does an mean sah?" answered the surprised negro. "What does you mean sah? What does you mean? Didn't you make signs to me? Don't gimme no guff now; you signed to me fo' beer, ah, here I done bring hit. Gimme six blue sah."

It is told that a certain official in Kansas, who has a lot to do with the law's enforcement, stopped in a drug store in a Kansas town some time ago. His ear itched, and naturally he poked a finger into the tantalizing auricle. In about two minutes he got a high-balled—and in that way learned that there is a sign language in Kansas.
